- For NUC11 H-Series !
- NUC11DBB !
- Premium Aluminium !
- GPU Support !

Premium fully aluminium chassis designed for Intel's modular computing segment of NUC 11 and 9 Compute Elements (H-series). With superior room for the latest 2.9-slot GPU's up to 313mm.

Build and unleash the most ferocious monster power for gaming!

- Premium fully aluminium chassis for modular computing with massive room for GPU
- Perfect for Hi-End Pro Applications
- Superb Modular Design
- Excellent Heat Dissipation Technology

<b>Material</b>	Aluminium with anodised black
<b>Motherboard Types &amp; Support</b>	<p>Intel® NUC 11 Extreme Compute Element-H (Driver Bay):            NUC11DBBi5 with Core™ i5-11400H            NUC11DBBi7 with Core™ i7-11700B            NUC11DBBi9 with Core™ i9-11900KB</p> <p>Intel® NUC 9 Extreme Compute Element-H (Ghost Canyon):            NUC9i9QNB with Core™ i9-9980HK            NUC9i7QNB with Core™ i7-9750H            NUC9i5QNB with Core™ i5-9300H</p> <p>Intel® NUC 9 Pro Compute Element-H (Quartz Canyon)            NUC9VXQNB with Xeon® E-2286M            NUC9V7QNB with Core™ i7-9850H</p>
<b>Dimensions</b>	200.6 x 411 x 274.6 mm (W x D x H)
<b>Options</b>	Up to 330mm length, 2.9-slot GPU; 2.5" SSD/HDD; RGB Lighting
<b>Cooling System</b>	Active cooling with 2 x 120mm fans
<b>Power Supply</b>	Up to 1000W SFX (optional)
<b>Baseboard (Included)</b>	Included baseboard with dual PCIe 4.0 support with 10-pin power connector. 24-pin to 10-pin PSU adapter cable also included.
<b>Intel® Board Element (Optional Baseboard)</b>	<ul style="list-style-type: none"> <li>·Intel® West Cove carrier board (BBWC1B1)</li> <li>·Intel® Monster Cove Gen 4 (BKBBMC1B1) - compatible with Driver Bay, Quartz Canyon, and Ghost Canyon Compute Elements</li> </ul>
<b>Discrete Graphics</b>	Independent GPU
<b>Front I/O Opening</b>	USB type-A x 2, power button, power LED light
<b>Product Code</b>	A-NUC77-A1B
