New condition ! Only board. No accessory !

The Intel® Desktop Board D201GLY is an innovative solution for the sub-value market segment. With an Intel® Celeron® processor and graphics integrated on the board, this board enables easy system integration and helps you to achieve a lower system cost. This board has 10/100 LAN and can support up to six Hi-Speed USB 2.0 ports, providing both connectivity and ease of use for your computing needs such as email and Internet access, instant messaging and Voice Over IP (VoIP).

The Intel Desktop Board D201GLY is built in smaller uATX-Compatible form factor providing lower power consumption and low sound emission.

|             |   |
|-------------|---|
| Form Factor | uATX (6.75 inches by 6.75 inches [171.45 millimeters by 171.45 millimeters]) (ITX compatible) |
| Processor   | Integrated Intel® Celeron® 215 processor (1.33 Ghz) with a 533 MHz system bus                 |

|                        |  |
|------------------------|--|
| Memory                 | One 240-pin DDR2 SDRAM Dual Inline Memory Module (DIMM) sockets<br>Support for DDR2 533 MHz and DDR2 400 MHz DIMMs<br>Support for up to 1 GB of system memory  |
| Chipset                | SiS* SiS662  |
| Audio                  | ADI* AD1888 audio codec  |
| Video                  | Integrated SiS Mirage* 1 graphic engine  |
| I/O Control            | Winbond* W83627DHG-B based Legacy I/O controller for hardware management, serial, parallel, and PS/2* ports  |
| LAN Support            | 10/100 Mbits/sec LAN subsystem using the Broadcom* LAN adapter device  |
| Peripheral Interfaces  | Six USB 2.0 ports<br>One parallel ATA IDE interface with UDMA 33, ATA-66/100/133 support<br>One S-Video output port (optional)<br>One serial port<br>One parallel port<br>PS/2* keyboard and mouse ports |
| Expansion Capabilities | One PCI Conventional* bus connector  |

For Operating you need a P4 adapter or a PSU with P4 connector.
